OVERVIEW

AVAO® BOD is developed and designed for everyone who works at heights. The harness provides the opportunity for safe and efficient high work. The harness is attached with a manual locking of a carabiner and is certified according to European standards.

With the doubleback buckle, you can easily adjust the height of the harness so that it fits the length of the back, which can also be adjusted during use. The waist belt is wide and the shape gives the back good support. The padded shoulder straps provide increased comfort.

AVAO® BOD is also equipped with several loops to easily carry and organize your tools.
