OVERVIEW

ASTRO® BOD FAST from Petzl is an ultra comfortable full body harness that is specially designed for increased efficiency and comfort during rope climbing.

The ventral attachment point enables optimal integration of equipment such as rope clamps, support lanyards etc. and the harness is equipped with several loops to attach your tools and tool bags. The wide, semi-rigid waist belt provides excellent support and the leg loops are designed and lined for high comfort. Thanks to its self-locking buckles on the harness, between the waist belt and the leg loops, allows a shorter adjustment when the backrest is used.

ASTRO® BOD FAST is certified according to European and Russian standards. This European version of the harness has leg loops with FAST LT automatic buckles.

SPECIFICATION

PRODUCT PROPERTIES
