

SAVIOUR TECHNICAL STRETCHER

RESCUE STRECHER

- Neutrally buoyant - so floats if dropped overboard. Will float with a patient in a lifejacket
- Xray translucent and CT friendly
- For vertical and horisontal lift

The Saviour Technical is a roll-up stretcher that only weighs 9 kg, including the standard lifting harness. It is easy to carry, easy to deploy, and easy to re-stow.

OVERVIEW

Saviour stretcher, weighing just under 5kg, the Saviour Stretchers come supplied in a roll-top shoulder bag. Packed bag dimensions are; 70cm long x 30cm wide x 30cm high. Once out of the bag the Saviour's LDPE skin lays flat following a simple reverse bend at each end.

Colour coded straps make for intuitive use without prior training. The figure of eight at the feet and the cross straps at the chest secure the patient when lifting vertically. Saviour Stretchers feature 6 reinforced handholds to allow for easy extended duration carries, and is easily carried by 2 or 4 people."
