OVERVIEW

ST 111 is equipped with rear and side steel D-rings, two front D-rings where the chest D-ring is in Steel and the waist one is aluminium. The harness consists of two removable parts, the shoulder part can be completely separated and the user has the opportunity to use the harness as a sit harness. Textile loops for rescue from confined and narrow spaces are attached to the upper shoulder part of the harness. This harness is perfect for people working with rope access who wants a reliable and highly functional harness. The harness is offered in two different sizes, M/L and L/XL.
