-----------	----------------------

OVERVIEW

Rescue accessories is a kit developed to perform rescues when working at height together with your rescue equipment. These components are carefully selected to provide you with the tools you need to perform a rescue safely.

You can easily re-direct the anchor point with pulley, sling and carabiner to perform a safe rescue without risking a fall.

With the Rescue Rope-Grab you will be able to connect the rescue equipment to the casualty's lanyard (fall arrest) covering the most common types of lanyards and SR. This to be able to lift, release and lower the casualty to safety.

With the multiple anchor slings, you can easily create secure anchors by distributing the power to two points if the appropriate anchor point is missing or too far away.

Material shortages due to the pandemic have resulted in the need for Cresto Group to periodically and temporarily replace certain components on our products with replacement components fulfilling the same function. Due to this, the product images may differ from that which is delivered.

SPECIFICATION

PRODUCT PROPERTIES

Product includes	2pc 1,2m anchor slings, 1pc 0,8m anchor sling, 1pc edge protector with steel carabiner twist-lock, rope grab for rescue, pulley and 2pcs steel carabiner twist-lock
Gate strength (kN)	16.0
Gate opening (mm)	16.0
Gate feature	twist-lock
Adjustable under load	No
Energy absorber	No
Fall indicator	No
Maximum number of users	1
Material	Polyester, Galvanized steel, Aluminum

CLASSIFICATION

PPE-category	Category 3
EN-standard	EN 362 : 2004, EN 795 : 2012
Notified body	0102, SGS UK Ltd, Unit 202b Worle Parkway, Weston-superMare, Somerset BS22 6WA, United Kingdom
Other standards	ANSI Z359.1

ANNUAL INSPECTION

Annual inspection	Yes, every 12 months
Life span	10 years
Identification	Batch number
RFID	No

DOCUMENTS

Declaration of Conformity	Yes
