

# RED PRO X Mobile

## Rescue and evacuation device

- Extremely good lifting capacity
- Water sealed brake housing
- In lift certified bag

EN 1496 : 2017

EN 341 : 2011

## Product description

RESQ RPX is the latest generation of rescue and evacuation equipment from RESQ – designed and developed for easy use with intuitive functions. The RPX can handle most rescue scenarios in various industries and extreme environments, from evacuation from high heights, lifting from deep shafts to advanced rescues, the height worker can feel confident that the equipment performance is verified. The design and functionality of the device are based on insights from professionals working at heights daily. RPX is designed to give height workers verified confidence in extreme environments and for easy implementation of user-training and inspections. Single-sided use for safe handling - all features on frontside - no more losing valuable time, twisting and turning the device to double-check. Universal power tool-interface for heavy lifting, up to 255m. Top-mounted swivel for optimal positioning, even in tight conditions and confined space. Laser printed, easy to read data and pictograms, engraved direct and permanently on the body. 280 kg – 255m verified and tested decent weight and height! The device comes with a lifting function where the connection of machine-driven accessories simplifies and facilitates lifting at longer distances as standard. With the help of a power tool, the equipment can lift a load of 140 kg at a distance of 255 meters. RPX requires a minimum of training which equals Low TCO for maintenance of training certificates for your workforce. Due to the easily recognizable and intuitive design on both rescue equipment and accessories, the kit is both practical and cost-efficient to introduce to already trained workforce which holds GWO or similar height training certificate. RPX Mobile is delivered as a complete set in RESQ Vacuum (service interval of 10 years), lifting pack and accessory kit. Material shortages due to the pandemic have resulted in the need for Cresto Group to periodically and temporarily replace certain components on our products with replacement components fulfilling the same function. Due to this, the product images may differ from that which is delivered.

## Product properties

Brand	RESQ
Adjustable under load	Yes
Attaching connector 1	Device: Aluminum carabiner with swivel
Attaching connector 2	Rope: Aluminum carabiner
Minimum breaking strength - MBS (kN)	20
Descent speed (m/s)	0,9-1,6

Energy absorber	No
Extra functions	Lift with external power source
Fall indicator	No
Functions	Descend function, Lifting function
Gate strength (kN)	16
Gate feature	twist lock
Lifting mechanics	Gear, ratio 1:9
Material	Polyamide, Aluminum , Techno polymers
Maximum descent	255 meters
Maximum load (kg)	200
Maximum number of users	2
Maximum rope length (m)	255
Mechanics	Centrifugal brake
Minimum load (kg)	40
Maximum working temperature (c)	60
Minimum working temperature (c)	-40
Packinging type	Vacuum
Rope	Polyamide/polyamide 32-braided kernmantel construction 9,6mm
PPE-category	Category 3
Declaration of Conformity	Yes
EN-standard	EN 1496 : 2017, EN 341 : 2011
Warranty	2 year
Identification	Serial number
Annual inspection	Yes, every 12 months
Life span	10 + 10 years. Product lifecycle 10 years + 10 years after service. Lifting bag, 5 years
Notified body	0200, FORCE Certification A/S, Main office, Park Allé 345, DK-2605 Brøndby, Denmark
Other standards	ANSI Z359.4-2013, CSA Z259.2.3-12
RFID	Yes
