Product description

The FIREMAN FR safety belt is intended for firefighters, it serves as an excellent tool carrier for firefighters, it allows the user to secure the working position while working. The strength of the D steel rings is tested to 15 kN. Textile material hangers are intended for hanging carabiners and other equipment weighing up to 10 kg. The belt is fastened with a quick release buckle. The left side of the belt is designed so that a holster for a fireman's ax can be attached to it.
