Product description

The TORQ Micro Block H2.0 is a self-retracting lanyard designed for superior fall protection and seamless mobility. This device is ideal for scenarios where extensive movement is necessary, providing a safe working zone directly above the user. Its lightweight design makes it easy to transport and use, ensuring it can be anchored effectively to withstand forces up to 12kN. The lanyard features Dyneema webbing known for its high strength-to-weight ratio, coupled with a robust shock absorber to minimize forces exerted during a fall. This assembly complies with CE EN360:2002 standards, ensuring reliability and safety in various working conditions. Sharp edge tested according to CNB/11.060 0,5 mm radius.
