

CRESTO CROWN ELECTRO

Protective helmet EN397 - EN50365 1000V

- Electrically insulated according to module C2 in EN 397. / EN 50365
- Steering wheel adjustment for smooth size adjustment, fits XS-XXL (53-63cm).
- Quick mounts for accessories

Standards: **EN 397+A1:2012** **EN 50365**

Product description

Cresto Crown Electro is an electrically insulated safety helmet used for electrical installations and other tasks that place high demands on the safety of the electrician. As the helmet has no ventilation holes and no conductive parts, it provides protection against electrical shock and prevents electrical current from passing through your head. Crown Electro is approved for electrical work in low voltage environments up to 1000V (AC) and 1500 V (DC).

Cresto Crown Electro is an electrically insulated safety helmet used for electrical installations and other tasks that place high demands on the electrician's safety. As the helmet has no ventilation holes and no conductive parts, it provides protection against electrical shock and prevents electrical current from passing through your head. Crown Electro is approved for electrical work in low voltage environments up to 1000V (AC) and 1500V (DC).

- Electrically insulated and approved for 1000 VAC
- No electrically conductive parts
