-
-

Standards: EN 355 : 2002

Product description

Energy Single-Flex is a single fall arrest lanyard with flexible webbing and only one hook.

A single fall arrest lanyard provides secure protection when working on skylifts and scaffolding.

Energy Single-Flex has the same functions as Energy Twin-Flex except that it has only one webbing and one hook instead of two. Energy Single-Flex is manufactured as a flexible tube with internal elasticity, which allows you to stretch the line to a maximum length of 1.8 meters. At the beginning of the rope there is an external absorber mounted which is released in case of a fall and catches you. The cover on the absorber can easily be replaced if it becomes dirty or damaged to ensure that the rope underneath is protected in the best way.

Product properties

Brand:	Cresto
Maximum load (kg):	140
Maximum number of users:	1
Minimum working temperature (c):	-40
Maximum working temperature (c):	100
EN-standard:	EN 355 : 2002
Notified body:	1019, VVUU, a.S., Pikartska 1337/7 716 07 Ostrava - Radvanice Czech Republic
Annual inspection:	Yes, every 12 months
Life span:	10 + 2 years. Product lifecycle 10 years + 2 years stock keeping
RFID:	Yes
Warranty:	2+1 year when registered in Inspector
Declaration of Conformity:	Yes
Fall indicator:	Yes
Minimum breaking strength - MBS (kN):	15
Energy absorber:	Yes

Attaching connector 1:		Oval twist lock carabiner in aluminum, mounted with captive pin				
Attaching connector 2:		Big aluminum hook with 63 mm opening				
Mechanics:		Tear-webbing absorber
