

FIREMAN SAFETY BELT

Belt FIREMAN

- Steel D ring and textile loop
- Tool Loops, Y - sling, a steel carabiner
- Lightweight

Standards: **EN 358 : 2018**

Product description

The popular safety belt for firefighters FIREMAN serves to secure and stabilize the working position.

The safety belt is intended for firefighters; it serves as an excellent equipment carrier and allows for securing a working position. The strength of the textile and steel loop on the belt is tested to withstand 15 kN. The belt is fastened with a manual buckle. Material loops are designed for attaching carabiners and other equipment weighing up to 10 kg. In case of danger, it serves as an emergency means of rescue from depths and heights. The safety belt includes a Y-sling with a steel carabiner used to create a "seat" in case of rescue, which is conveniently stored in a textile pocket for every eventuality.

Product properties

Brand:	Safe Time
Material:	Polyamide, Steel
Maximum load (kg):	150
Maximum number of users:	1
Minimum working temperature (c):	-20
Maximum working temperature (c):	60
EN-standard:	EN 358 : 2018
Notified body:	1019, VVUU, a.S., Pikartska 1337/7 716 07 Ostrava - Radvanice Czech Republic
Annual inspection:	Yes, every 12 months
Life span:	10 years
RFID:	No
Warranty:	2+1 year when registered in Inspector
Declaration of Conformity:	Yes
Minimum breaking strength - MBS (kN):	22
Side D-rings:	45 mm D-ring in galvanized steel and textile loop

Adjustable under load:		No		
Padding material:		Breathable material in 3-D mesh
