Product description

The focus of the harness design is on ergonomics and comfort. All in order for the user to be able to perform their work as efficiently and safely as possible.

This harness is developed with and for people within industrial tower and pole climbing industry. Design, ergonomics and comfort are the key elements of this robust harness. The H-design makes it easy to put on and remove and its great support and equipment functions come in handy when working long days with a need for great flexibility and comfort.

The harness is equipped with tool holders for bags and accessories. On the back of the support belt there is a perfect place for attachment of a personal evacuation device e.g. Smartline X.
