- Over edge rescues
- Rope grab for rescue of most ropes and lanyards
- Multi purpose

Standards: **EN 795 : 2012** **EN 362 : 2004** **ANSI Z359.1**

## Product description

Accessory kit to complement rescue equipment with lifting function

Rescue accessories is a kit developed to perform rescues when working at height together with your rescue equipment. These components are carefully selected to provide you with the tools you need to perform a rescue safely.

You can easily re-direct the anchor point with pulley, sling and carabiner to perform a safe rescue without risking a fall.

With the Rescue Rope-Grab you will be able to connect the rescue equipment to the casualty's lanyard (fall arrest) covering the most common types of lanyards and SR. This to be able to lift, release and lower the casualty to safety.

With the multiple anchor slings, you can easily create secure anchors by distributing the power to two points if the appropriate anchor point is missing or too far away.

Material shortages due to the pandemic have resulted in the need for Cresto Group to periodically and temporarily replace certain components on our products with replacement components fulfilling the same function. Due to this, the product images may differ from that which is delivered.

## Product properties

Brand:	RESQ
Material:	Galvanized steel, Aluminum , Polyester
Maximum number of users:	1
EN-standard:	EN 795 : 2012, EN 362 : 2004
Other standards:	ANSI Z359.1
Notified body:	0102, SGS UK Ltd, Unit 202b Worle Parkway, Weston-superMare, Somerset BS22 6WA, United Kingdom
Annual inspection:	Yes, every 12 months
Life span:	10 years
RFID:	No
Product Includes:	Edge Protection kit,Rope grab for rescue,Single Pulley,Carabiner N-267G-CP,Sling 3683
Declaration of Conformity:	Yes
Fall indicator:	No

Energy absorber:	No
Gate feature:	twist-lock
Gate opening (mm):	16
Gate strength (kN):	16
Adjustable under load:	No
